An institution grows as it is capable of serving well its many customers: WE serve the discriminating trade what it demands: MERIT FLOWER SEEDS.

We are justly proud of the esteem and favor our stocks have attained, and devote all our energies to the perfecting of strains and the breeding up of new varieties.

We extend to the seed trade a most cordial invitation to visit our experimental and trial grounds and our extensive ranches, and personally acquaint themselves with the purity of our cultures.

We again welcome the opportunity to thank our patrons for their generous support in the past and will do our utmost to justify its continuance.

GENERAL CONDITIONS OF DELIVERY

For every order, we agree to plant sufficient land to produce the desired quantity of seed under normal conditions.

Should the outcome of the crop be lower than our estimation, orders will be filled pro rata only.

Crop failure or any other cause beyond our control releases us entirely from delivery.

We give no warranty, express or implied, as to description, purity, productiveness, or any other matter of any seeds we sell, and we will not be in any way responsible for them.

NOVELTIES INTRODUCED BY WALLER-FRANKLIN IN 1937

NEW MARIGOLD AMERICAN BEAUTY (*Chrysanthemum Flowered Incurved*)—Last year we introduced Marigold *Chrysanthemum Flowered Hybrids* and their success was instantaneous. This year we have been able to segregate the most beautiful of these hybrids, the lovely incurved type so startlingly new, which created such a sensation in the hybrids. This new strain is identical in form of flower to a lovely incurved *Chrysanthemum*. The plants are very floriferous and the stems are good and strong for cutting. We feel confident that the perfection of this novelty represents not only the greatest advance yet made in African Marigolds but also one of the great horticultural achievements of the century. We offer this new strain in the three colors listed below and a mixture. All colors are true and 100 per cent double. Height, 3 ft.

AMERICAN BEAUTY ORANGE (*Incurved*)

AMERICAN BEAUTY GOLDEN ORANGE (*Incurved*)

AMERICAN BEAUTY YELLOW (*Incurved*)

Each of the above: Price per oz. \$1.65, per lb. \$20.00.

AMERICAN BEAUTY MIXED (*Incurved*)—Colors vary from deep orange to light orange and from deep yellow to light yellow.

Price per oz. \$1.25, per lb. \$15.00.

NEW AGERATUM FAIRY PINK—*Ageratum Fairy Pink* is a dwarf compact *Ageratum* of a delightful soft salmon rose pink color. It begins blooming when not more than 1½ to 2 inches high and continues to grow until it has formed a solid compact mass of blooms. Its maximum height when it is in full bloom is not greater than five inches.

Price per oz. \$4.20, per lb. \$50.00.

NEW SHAKESPEARE'S PANSIES—Four years ago a little stray Pansy was discovered among our cultures that was so simple and sweet that the plant was staked and the seed saved. All the seed saved was carefully sown the next year and when they flowered all who saw them were delighted. We decided to grow them on for a novelty in Pansies, still not knowing what they were. The writer happened to be looking through an old flower book with colored illustrations called, "Flowers from Stratford on Avon" by Paul Jerrard and was surprised and delighted to find a hand-colored plate of Pansies exactly the same as the little stray Pansy found in our cultures. In the description the author says: "The Pansy of the time of Shakespeare had not been improved by crossing with the Viola Altaica and other species of the genus Viola, and consequently the old and small varieties of the original flower have been alone selected, as they were found growing almost wild near Stratford."

This is a simple quaint little Pansy suitable for any location in the garden and can be easily grown wherever Pansies are successful. It is in no sense a florist Pansy. Its form, habit and time of flowering is similar to Viola Papilio.

Price per oz. \$4.20, per lb. \$50.00.

NEW PETUNIA HYBRIDA TOPAZ ROSE—The public has long been asking for a hybrida rose Petunia that will neither fade nor burn under the hottest sun. After many years of selecting we have produced a Petunia in this most sought for and desired color and we have named it Topaz Rose. Topaz Rose is a brilliant addition to the Hybrida group. The color is a fiery velvety rose of a brilliancy seldom seen. It is slightly suffused with gold which gives it its fiery appearance and the throat is the color of topaz. We feel assured this Petunia will have great popularity. *Winner of Special Mention in the 1938 All-America Selections.*

Price per oz. \$2.00, per lb. \$24.00.

NEW SCABIOSA GIANT ANNUAL SALMON BEAUTY—Ever since we introduced Scabiosa Loveliness in 1930 as a new color in salmon rose tones, we have been working hard to perfect a pure salmon Scabiosa. The work was started simultaneously with Loveliness so that we have put in at least twelve years work on this new color. It is with great pleasure that we offer Scabiosa Salmon Beauty as a pure Salmon in color with huge flowers and all the vigor of its near relative, the popular Loveliness.

Price per oz. \$1.25, per lb. \$15.00.

NEW SCABIOSA ANNUAL ORCHID SHADES—A mixture of orchid shades, lovely and exquisite beyond description, bred exclusively for high class florist cut flowers. While these lovely orchid shades were bred solely to produce these exquisite orchid tones in a Scabiosa for florists, we feel the professional and amateur gardener will also want the opportunity to share the delight and pleasure which these flowers are capable of producing. The colors run through all the tones of the Cattleya Orchid. Soft Mother-of-Pearl pink from light to deep, rich mauves, crushed strawberry, the shades known as orchid and royal purple with all the intermediate shades and tones of these glorious colors. Some of the flowers are two-toned, such as deep Mother-of-Pearl pink with light pink center, rich mauve with lilac center, deep lavender with pale center. Equally lovely under natural or artificial light. Large flowers on very long strong stems. A delicious honey-like perfume.

Price per oz. \$0.85, per lb. \$10.00.

NEW SALPIGLOSSIS LIGHT BLUE AND GOLD IMPROVED—Among all the varieties of Salpiglossis this color has been inclined to show a weak growth. It was most apparent in the mixed where this color was not tall enough to show up well. We now offer a great improvement in Salpiglossis Light Blue and Gold Improved. It is the same uniform height as the Emperor group, about 3 feet tall. It is free flowering with numerous branches of very large flowers. The color is a clearer, richer light blue with beautiful gold veinings.

Price per oz. \$0.65, per lb. \$7.50.

NEW STOCK SUPER GIANT IMPERIAL BLUSH PINK—A new addition to the Super Giant Imperial group. This type grows three feet tall, is base branching, each plant producing 12 to 15 huge flower spikes. The individual flowers measure two inches or more in diameter. We offer this in a beautiful Blush Pink.

Price per oz. \$2.50, per lb. \$30.00.

NEW VIOLA WALLER-FRANKLIN FORMULA MIXTURE—This blend of bright gay colors far surpasses any mixture of Violas we have ever seen. The bright shades of self colors of red, yellow, blue and apricot combined with many shades which are blotched, undoubtedly make these Violas a supreme mixture. A bed or border of this superior mixture of Violas with their round faces and brilliance is, we consider, an achievement.

Price per oz. \$1.25, per lb. \$15.00.

NEW SWEET PEA EARLY FLOWERING SPENCER DELICIOUS—With so many beautiful Sweet Peas in existence, a new variety must be good to warrant its introduction. Most Early Flowering Sweet Peas are introduced primarily for the florist trade and greenhouse culture. However, this new Sweet Pea which we have named Delicious is such a delightful, lovely new color that we feel it is too good to be monopolized by the florists and greenhouse growers alone. We wish this beautiful new color to be available for the garden lover, the gardener who wants a short row of Sweet Peas for cutting for decoration in the home.

The color of Delicious is hard to describe. It reminds one of crushed strawberries and Devonshire cream blended together in a delicious combination. Its flowers, habit and length of stem are everything a good Sweet Pea should be.

Price per oz. \$0.45, per lb. \$5.00.

NEW RUST RESISTANT ANTIRRHINUM SUPER MAJESTIC MAIDEN'S BLUSH—Delicate blush pink, flower and tube being the same pleasing color. The partially opened buds are a lovely fawn color. Flowers are enormous, the lips beautifully waved. Blossoms are well spaced on large, graceful tapering trusses. The combination of blush pink and fawn gives this Snapdragon an exquisite two-tone effect very unusual in any flower.

Price per oz. \$2.10, per lb. \$25.00.

NEW RUST RESISTANT ANTIRRHINUM SUPER MAJESTIC RED ROCKET—A very bright striking color. It is bright red, almost scarlet in some lights, toning down to a rich bright crimson. There is fire and warmth in this color which makes it most attractive. Huge flowers on large graceful trusses. Both throat and flower are one solid color. A new color addition to the Super Majestic group.

Price per oz. \$2.10, per lb. \$25.00.

NEW RUST RESISTANT ANTIRRHINUM SUPER MAJESTIC ROSE SENSATION—Without doubt the finest rose pink Snapdragon ever offered. The color is just right. It is the richest, most charming shade of rose pink imaginable, with just a slight touch of salmon to add to its piquancy. It is good for commercial florists (it being just the color they need), for the garden or any location where a first class rose pink Snapdragon is needed. Flowers are huge, both tube and flower being one solid color. Trusses are immense and finely tapered. The finest Snapdragon we have ever introduced. It was given XXXX in our breeding grounds.

Price per oz. \$2.10, per lb. \$25.00.

NOVELTIES INTRODUCED BY WALLER-FRANKLIN IN 1937—Continued

* * * * *

NEW RUST RESISTANT ANTIRRHINUM SUPER MAJESTIC ROYAL CRIMSON—Deep rich velvety garnet crimson, with both flower and tube one solid color. The spikes are large, handsome and beautifully tapered. A new color in the Super Majestic group.

Price per oz. \$2.10, per lb. \$25.00.

NEW RUST RESISTANT ANTIRRHINUM MAXIMUM or SUPER GIANT PARADISE ROSE—Soft rose pink. This variety is similar in color to Maximum Loveliness but is much superior in form. The trusses of flowers are better spaced, making the flowering spike larger and longer with the flowers more compact on the spike. We have never before seen a Snapdragon with a better formed flowering spike. Tube and flower same uniform color.

Price per oz. \$1.00, per lb. \$12.00.

NEW RUST RESISTANT ANTIRRHINUM MAXIMUM or SUPER GIANT SWING TIME—This is indeed a lovely Snapdragon. So lovely that words fail to adequately describe it. Picture for yourself the loveliest rose pink imaginable, so fresh and crisp looking that it has the appearance of newly made sugar candy, then add a bright yellow touch to the nose and a white tube and you have a color combination too lovely to describe. Whatever you think of Snapdragons with white tube, this is one that you will be proud to have. Spikes are huge and evenly packed with immense blooms. Habit is a great improvement on all Maximum Snapdragons. Spikes of blooms are beautifully tapered. We think this the loveliest Snapdragon we have ever seen.

Price per oz. \$1.00, per lb. \$12.00.

NEW RUST RESISTANT ANTIRRHINUM MAXIMUM or SUPER GIANT YELLOW GIANT—This is the deepest yellow we have ever seen in any Snapdragon. It is several shades deeper than Canary Bird. The color is so striking it catches the eye immediately. It has aroused lots of comment from all who have seen it growing in our grounds. Flowers are closely spaced on huge trusses. Habit is all that can be desired.

Price per oz. \$1.00, per lb. \$12.00.

NEW RUST RESISTANT ANTIRRHINUM LARGE FLOWERED GIANT (Majus Grand.) OPAL QUEEN—A delicate combination of beautiful shades of pink with a touch of salmon and a little apricot blended together. A pale yellow nose gives emphasis to this lovely color combination.

Price per oz. \$0.75, per lb. \$9.00.

NEW RUST RESISTANT ANTIRRHINUM LARGE FLOWERED GIANT
(**Majus Grand.**) **PADRE**—A glistening crimson, rich and beautiful. It gives us no little pleasure to introduce the first Rust Resistant Crimson in the Majus group.

Price per oz. \$0.75, per lb. \$9.00.

NEW RUST RESISTANT ANTIRRHINUM LARGE FLOWERED GIANT
(**Majus Grand.**) **STOPLIGHT**—A vivid signal red, so bright that we have named it Stoplight. It is a self, both flower and tube being one solid color. The flowers are large and closely spaced. A fine bright red for any purpose.

Price per oz. \$0.75, per lb. \$9.00.

NEW RUST RESISTANT ANTIRRHINUM LARGE FLOWERED GIANT
(**Majus Grand.**) **YELLOW JACKET**—A clear deep yellow, several shades deeper in color than Buttercup in this group. This is the deepest yellow we have ever seen in the Majus Grand. group. A very fine Snapdragon.

Price per oz. \$0.75, per lb. \$9.00.

NEW RUST RESISTANT ANTIRRHINUM LARGE FLOWERED HALF-DWARF (**Nanum Grand.**) **ANTIQUE GOLD**—A beautiful new color in this group. It has shades of old gold, copper, terra cotta, fawn and orange blended in a delightful combination.

Price per oz. \$0.50, per lb. \$6.00.

NEW RUST RESISTANT ANTIRRHINUM LARGE FLOWERED HALF-DWARF (**Nanum Grand.**) **BUMBLE BEE**—This is a very novel combination of colors which we first thought of calling Gaiety, but somebody suggested that the flower looked as though it had a Bumble Bee on it and it was so named. It is crimson with a white tube and a large yellow snout which gives it a very gay and jazzy appearance.

Price per oz. \$0.50, per lb. \$6.00.

NEW RUST RESISTANT ANTIRRHINUM LARGE FLOWERED HALF-DWARF (**Nanum Grand.**) **TANGERINE**—This is a brand new color in Antirrhinums. It is a warm glowing bronzy orange self, very much resembling a Tangerine orange. A bed of this makes a gorgeous effect.

Price per oz. \$0.50, per lb. \$6.00.

NEW RUST RESISTANT ANTIRRHINUM LARGE FLOWERED HALF-DWARF (**Nanum Grand.**) **YELLOW GEM**—A nice clear yellow. This is the first yellow we have been able to introduce into the Half-Dwarf group. It is a beautiful addition.

Price per oz. \$0.50, per lb. \$6.00.

MARIGOLD (Tagetes) annual

The botanical name of the African Marigold is Tagetes Erecta. The French Marigold is Tagetes Patula.

MARIGOLD TALL AFRICAN DOUBLE FISTULOSA, 3 ft.

An especially fine tall branching strain, bearing enormous flowers of the quilled type.

One of the greatest improvements in the history of African Marigolds. No longer do we have to be content with 40 or 50 per cent singles. This new strain is 100 per cent double, with huge perfectly formed, quilled heads.

As originators, we claim to have the most perfect and best strains. Special for florists.

MARIGOLD AMERICAN BEAUTY (Chrysanthemum Flowered Incurved)
(Waller-Franklin) (New) 3 ft.

Last year we introduced Marigold Chrysanthemum Flowered Hybrids and their success was instantaneous. This year we have been able to segregate the most beautiful of these hybrids, the lovely incurved type so startlingly new, which created such a sensation in the hybrids. This new strain is identical in form of flower to a lovely incurved Chrysanthemum. The plants are very floriferous and the stems are good and strong for cutting. We feel confident that the perfection of this novelty represents not only the greatest advance yet made in African Marigolds but also one of the great horticultural achievements of the century. We offer this new strain in the three colors listed below and a mixture. All colors are true and 100 per cent double. Height 3 ft.

NEW MARIGOLD CHRYSANTHEMUM FLOWERED HYBRIDS

These new Hybrids consist of many new and distinct types of Marigolds, varying in size of bloom from two to four inches in diameter. Some of these types have petals which are very quilled and incurved and which remind one of miniature American Beauty Asters in orange and yellow. There are also the imbricated types which have from four to five rows of flat petals and in the center there are many small quilled florets. These beautiful types are quite variable and are most desirable. The beautiful colors are most fascinating and can best be described as containing all shades of orange and yellow. The plants are about three feet high, supporting masses of flowers on fine stems for cutting.

NEW MARIGOLD DWARF ROYAL SCOT ALDDOUBLE

For many years we have been working on striped French Marigolds and we now have an achievement of which we are very proud. We offer the trade a new strain of Dwarf Striped French Marigold. Growth, dwarf and bushy, every plant of a uniform shape and height of about 10 to 12 inches. Color is rich mahogany and gold in uniform stripes. In addition, we offer practically absolute doubleness in each plant, something quite new in French Marigolds. We have, we consider, appropriately named this fine strain Dwarf Royal Scot Alldouble. All present strains of Dwarf Striped French Marigolds should be replaced by Dwarf Royal Scot Alldouble. Winner of Special Mention in 1937 All-America Selections. Price per oz. \$0.85, per lb. \$10.00.

We now offer a great improvement in Salpiglossis Light Blue and Gold Improved. It is the same uniform height as the Emperor group, about 3 ft. tall. It is free flowering with numerous branches of very large flowers. The color is a clearer, richer light blue with beautiful gold veinings.

NEW SCABIOSA GIANT ANNUAL SALMON BEAUTY

Ever since we introduced Scabiosa Loveliness in 1930 as a new color in salmon rose tones, we have been working hard to perfect a pure salmon Scabiosa. The work was started simultaneously with Loveliness so that we have put in at least twelve years work on this new color. It is with great pleasure that we offer Scabiosa Salmon Beauty as a pure Salmon in color with huge flowers and all the vigor of its near relative, the popular Loveliness.

SCABIOSA GIANT ANNUAL ROSETTE

As the result of many years' selection and painstaking care, we have created a glorious new color in Annual Scabiosa. Rosette is a beautiful shade of deep rose heavily suffused with salmon. The flowers are extra large and the stems are long and stiff. This glorious, glowing new color will undoubtedly make Rosette a most popular flower for the garden and also with the florist for cutting. It is a fitting companion to Loveliness, Peach Blossom and Shasta, all of which have received Awards of Merit from the Royal Horticultural Society.

“The florets are so large that it is almost unbelievable”—was the remark made by a visitor.

SWEET PEAS

Botanical name Lathyrus Odoratus

EARLY FLOWERING SPENCER SWEET PEAS

Our Early Flowering Sweet Peas are especially grown for culture under glass. They are equally desirable for growing out of doors.

SHIRLEY TEMPLE (Waller-Franklin)

seovj This Sweet Pea we consider the most beautiful we have ever originated.

It has blooms with the size and richness of color in Pinkie plus the dainty frilled and fluted flowers of Lady Gay. The color is softer and more beautiful than Pinkie. The flowers are the largest we have seen on any Sweet Pea and it has long stems with four large blooms on each stem.

This new Sweet Pea is so charming and dainty that it deserved the most appropriate name we could find. With the kind permission of Mr. and Mrs. Temple, it is named in honor of their daughter, the charming and lovely little cinema favorite, Shirley.

SPECTRUM RED (Waller-Franklin)

vadok As its name implies, this Verbena is an intense bright red, brighter than any other Verbena yet introduced. According to Ridgway, it is classified between Spectrum Red and Scarlet Red. Having no eye, the color is intensified, and its brilliance is quite dazzling. It is brighter and larger than Lucifer and is comparable only to Etna, but without Etna's yellow eye. Individual florets are one and one-fourth inches in diameter. We recommend this as the brightest Verbena in existence. Received special mention in the 1934 All-America Selections. Award of Merit, R. H. S., 1935.

Mixtures grown from these Master Formulae are listed in this catalog as "WALLER-FRANKLIN FORMULA MIXTURES."

COLOR CLASSIFICATION

In view of the numerous Sweet Pea introductions, it seems necessary to set up a classification according to color.

Every year we make careful color comparisons of the older varieties and the latest introductions and are in an eminent position to judge their respective merits.

We now take pleasure in submitting a color classification of the Standard Spencers.

The variety we consider best in each color class is indicated by an asterisk (*).
